

CS 511: Makeup Homework Assignment

Due December 2, 11:55pm

1 Assignment Instructions

Write solutions in Hydra to the following exercises (for monitors you can use the `monitor` keyword or implement it using `synchronized`):

- Exercise Booklet 5
 - Exercise 5 - Oil refinement plant
 - Exercise 6 - Hemotherapy Center
- Exercise Booklet 6
 - Exercise 8 - Conference

2 Assignment Policies

Collaboration Policy. Homework will be done individually: each student must hand in their own answers. It is acceptable for students to collaborate in understanding the material but not in solving the problems or programming. Use of the Internet is allowed, but should not include searching for existing solutions.

Under absolutely no circumstances code can be exchanged between students. Excerpts of code presented in class can be used.

Assignments from previous offerings of the course must not be re-used. Violations will be penalized appropriately.

Late Policy. Late submissions are allowed with a penalty of 2 points per hour past the deadline.

3 Submission Instructions

Submit a zip file named `makeup_<Surname>.zip` (where `<Surname>` should be replaced by your surname) through Canvas containing one `.java` file for each exercise.
